

Arizona ROCKS!

Getting Ready For Arizona's 100th Birthday!

In the U.S. of A., there's one special state that's hot!
Head due Southwest and soon you'll arrive at the spot
Arizona is IT! Just listen to what we've got:

We're chock full of treasure, copper and silver and gold
We've got a desert climate – in the winter it's not too cold
Arizona, we are YOURS, to have and to hold!
We know that

Arizona

CHORUS:

**Arizona Rocks! What a state we're in – where do we begin?
Arizona Rocks! Can you feel the heat? It just can't be beat!
Clap your hands and stomp your feet: Arizona ROCKS!**

If you want recreation, there are plenty of places to go
You can ride at a ranch or slide down slopes of snow
Arizona's got it ALL from head to toe!

The wildlife here is strong and fit to survive
Coyotes, rabbits, and mountain lions thrive
Spiders and snakes and scorpions ---- THEY'RE ALIVE!
They're all singing:

**Arizona Rocks! What a state we're in – where do we begin?
Arizona Rocks! Can you feel the heat? It just can't be beat!
Clap your hands and stomp your feet: Arizona ROCKS!**
